INTRODUCTION

Among the recommended New Year's resolutions, this is invariably heard: "Thou shalt have a hobby and ride it hard." From the number of Gladiolus named for Doctors, and Doctors I personally know of who are raising Gladiolus, I think they approve of a "Glad" hobby. It is pleasant, healthy exercise working in a flower garden, and there is the pleasure of showing your friends unusual and beautiful flowers which you yourself have grown. You will also enjoy being able to cut a bouquet for a neighbor or a sick friend as well as always having fresh flowers in your own home.

They tell us this is an age of color. Nearly every color is to be found in the Gladiolus. Plant the colors which will harmonize with the color scheme of your rooms as well as for a few highlights in the yard and garden.

If you can afford to do so, get not less than three of each variety you select. You will enjoy being able to cut two or more spikes of one color. Cut when the first bloom opens and they will last for days. When only the tip blooms are left, arrange them in a rose bowl or a low dish (in a flower holder), and you will almost think you have a new kind of lily.

To my past customers I wish to extend my thanks for their patronage. The many repeat orders make me feel that my efforts to give satisfaction are, in a measure successful. This last year is the third year that all bulbs have been treated with a reliable fungicide before planting, and as a result I feel that I have an unusually fine, clean lot to offer.

Please Note: Cultural instructions are sent with each order.

In case of error or mistakes (we all make them), money shall be refunded or stock replaced at the customer's choice.

Many varieties, especially the newer and rare sorts, are in great demand and I advise placing your order early to avoid disappointment.

Bulbs will be sent in March or April when there is no danger of freezing in transit, unless you instruct otherwise.

Cash, check or money order should accompany all orders.

All bulbs are sent prepaid where orders amount to \$1.00 or over; 25 per cent cash deposit accepted on orders of \$5.00 or over, balance before March 1st.

Bulblets: Germinating qualities vary with different varieties, but usually a good per cent of germination can be secured if properly cared for. I do not guarantee bulblets, however. Some varieties make only small bulblets.

Sizes: L stands for large bulbs, 1¼ inch or more; M for medium size, ¾ inch or more; S for small size, ⅜ inch or more. Small size will usually bloom if planted early.

Foreign varieties are from Erry, Australia; Mair, Scotland; Lemoine, France; and Pfitzer, Germany; and Holland.

GLADIOLUS

6 Bulbs at 5 times single rate, dozen at
10 times single rate.

PEONIES

I purchased my first peony roots in 1910 and each year since have added new varieties to my collection. Some varieties I have been unable to make bloom satisfactorily here in Connecticut. The red varieties are the ones most inclined to skip a year or two. "Midnight" is one of these rather shy bloomers but it is one of the most lovely when it does bloom, and so stays on my list. Most of these listed are however, those which have proved to be satisfactory in every way in my own garden. Do you know the best time to visit your peony garden? It is early in the morning before the sun is up very high. I wish you could all know the perfection and beauty of a peony bloom just opening. To see some of these buds unfold and catch the opal tints of the petals before the sun has had time to dull them, is to me a wonderful and beautiful sight. Standing among hundreds of these blossoms and newly opening buds one feels as though they had stepped into Paradise.

The single and Japanese peonies are becoming very popular and deservedly so. Both types should be in every collection.

The peony is absolutely hardy, and if properly planted in congenial soil and given reasonable care, is sure to thrive and give its wealth of beauty year after year.

September and October are the best months for planting peonies. Peonies usually bloom first season, but size and beauty of blossoms improves from year to year.

Bone meal is the best fertilizer to use about peonies. Plant in soil deeply dug and pulverized. Set so eyes are not deeper than two inches below level of the ground. Too deep planting is often cause of not blooming. Good idea to protect the roots first winter with mound of earth or any trash from garden, or both. Remove this early in spring.

Size of Peony Plants. Two to five well developed eyes with good root system.

Early May Flowering Peonies

- Officinalis Rosea Plena** Beautiful rose-pink flowers, fully double, flowering the middle of May \$2.00
- Officinalis Rubra Plena** Large globular bloom of brilliant crimson, fully double. This is the old fashioned "piney" of former years. 1.00
- Officinalis Tenuifolia** Single flowers of bright red with center of golden stamens. Foliage finely cut. Often called the "fern leaved peony." Very early. Height 6 to 9 inches. 2.00
- Whitleyi Major** Fine foliage, heavy and dark green. Very profuse bloomer of blush-white flowers with golden hearts on strong stems. Single 3.00

Single Flowering Peonies

- Clio** (Peterson) Almost semi-double. Tall. Pink. Very early and free bloomer. 1.00
- Letitia** (Kelway) Beautiful bright rose, lively and striking. 2.00
- Lord Kitchener** (Kelway) The finest rich red single peony. Color deep uniform brilliant crimson of very glossy texture. 2.00
- Othello** (Dessert) Carmine purple; golden stamens. None for sale this year
- The Moor** (Barr & Sons) Purple-garnet. Rich color, almost as dark as Monsieur Martin Cuhuzac. Medium size. Medium tall, vigorous grower, free bloomer. 2.00
- The Bride** (Dessert) White, yellow stamens. 1.50

| | |
|---|------|
| Piou-Piou (Kelway) Very large single flower. Beautiful bright rose. Mid season. Imbricated petals. Strong stiff stems..... | 2.00 |
| Silver Cup (Kelway) Very large; exceedingly beautiful. Pure white..... | 1.50 |
| Vesuve (Dessert) A dark, single, red peony. None for sale. | |
| Venise (Dessert) A deep rose-pink single. An artist's flower..... | 2.00 |

Japanese Peonies

| | |
|--|------|
| Attraction (Hollis) A Japanese Peony with guard petals of deep tyrian rose; center petaloids tipped yellow..... | 2.00 |
| Kameno-Karagoma (Japan) Guards clear carmine, center comb yellow..... | 2.00 |
| Kumagoe (Japan) Dark carmine, almost an amaranth-red with a large center of broad petaloids the same color but edged white. Medium flower but very nicely formed..... | 2.00 |
| Kamakurako (Japan) Purple rose..... | 2.00 |
| Mikado (Barr) The best known Japanese Peony; velvety crimson with a cushion of crimson petaloids edged and tipped gold..... | 2.00 |
| O Fugi A Japanese Peony with guard petals of very light pink, and center petals or petaloids white with a slight touch of yellow..... | 2.00 |
| Tago No Tsuki Semi-double bloom; pinkish white shaded straw color..... | 2.00 |
| Tokio (Japan) Broad clear carmine petals, heart of golden yellow..... | 6.00 |

Tree Peonies

| | |
|--|-------|
| Banksi Large semi-rose type, flesh pink flowers.. | 8.00 |
| Lavender A large semi-double bloom, with lavender shadings..... | 8.00 |
| Moutan Large, single, red-maroon flowers. The first to bloom..... | 10.00 |

List of Double Herbaceous Peonies

| | |
|--|------|
| Alba Sulfurea Cream and white..... | 1.00 |
| Albert Crousse (Cr) Shell-pink and salmon..... | 1.00 |
| Alexander Dumas Double, rose-pink..... | 1.00 |
| Archie Brand (Br) Shell-pink, very large blooms | 1.00 |
| Avalanche (Cr) Ivory white, large, fine form. Strong, robust grower. Very double..... | 1.00 |
| Aurore (Dessert) Semi-rose type; late. Color lilac-white with collar of milk-white flecked with crimson. Guards and center prominently flecked with carmine..... | 1.50 |
| Baroness Schroeder (Kel) 9.0. Superb flesh-white. One of the world's best Peonies. Mid-season..... | 1.00 |
| Claire Dubois (Cr) 8.7. Satiny pink. Large and fine. Late..... | 1.00 |
| Cherry Hill (Thur.) 8.6. Very deep garnet with a rich glossy sheen; erect, long stems. Very early | 3.50 |
| Couronne D'Or (Calot) Semi-rose type, pure white, reflecting golden stamens; extra good stem and flower, the best late, white cut flower.. | 1.00 |
| Delicatissima (Rosefield) Rose type. Early Mid. Tall. Very large full flowers of clear even pink shading lighter at the center, very delicate color | 1.00 |
| Desire (Brand) 8.5. Pink. Color a delicate lilac pink fading lighter towards the edges..... | 6.00 |
| Delachei (Delache) Blooms of good size, rose type with a few stamens scattered among the petals but not showing prominently. Color is a very pleasing deep dark red. Always to be depended on for a good supply of bloom..... | 1.00 |
| Duc de Wellington (Calot) White guards with sulphur center. Bomb type. Tall. Vigorous. Late midseason. Beautiful..... | 1.00 |

| | |
|---|------|
| Duchess d'Orleans (Guerin) Pink..... | 1.00 |
| Edulis Superbe (Lemoine) Crown type; bright clear pink with silvery reflex; extra good cut-flower..... | 1.00 |
| Ella Wheeler Wilcox (Brand) Bomb. Late. Tall. Deep shell pink..... | 1.00 |
| Elwood Pleas (Pleas) A large pink Peony whose petals have great substance..... | 2.50 |
| Edwin Forrest (Hollis) A large bloom of deep brilliant crimson with silvery reflex; bomb type; fragrant. This has greater size than Philippe Rivoire but but does not equal it in perfect shape..... | 1.50 |
| Eugenie Verdier (Calot) 8.6. Pink. A tall growing, very large flat flower of a light hydrangea-pink, the petals being lighter towards the outside and gradually growing deeper in color towards the center with a few flecks of crimson on the central petals. This is one of the greatest peonies. The plants are very thrifty and tall, the blooms are immense in size, and are borne profusely. It is a flower beautiful and striking in the field and wonderful as a cut flower..... | 1.50 |
| Exquisite (Kel.) 8.5. Glowing pink; very fine; much sought after..... | 3.00 |
| Felix Crousse (Crousse) Very brilliant red. Medium to large, globular, typical bomb shape; fragrant; strong growth..... | 1.00 |
| Faust Dainty, lavender-pink..... | 1.00 |
| Festiva Maxima (Mieliez) 9.3 Probably the most widely known of any Peony. Exceptionally large ivory-white flowers of rather feathery appearance, with a fleck of crimson in the center. Strong grower and free bloomer..... | 1.00 |
| Frances Willard (Brand) 9.1. White. This variety is listed among the World's 26 Most Beautiful Peonies. It is a perfectly-formed flower. The petals are of varying sizes, forming a very large rounding flower, often having a raised cup-shaped center inclosing golden stamens..... | 2.50 |
| Germaine Bigot (Dessert) 8.5. Pink. A clear rose type with lighter flesh-colored tints in the center with many petals marked with large blotches and stripes of crimson..... | 1.00 |
| Gen. Bertrand Solferino red..... | 1.00 |
| Grover Cleveland (Terry) Dark crimson..... | 2.00 |
| Georgina Shaylor (Shaylor 1908) 8.9. Semi-rose. L. Mid. Tall. Pale rose pink, center and guards slightly splashed crimson. Compact, erect strong grower..... | 3.00 |
| Ginette (Dessert) A French Peony of recent origin. Deep flesh, salmon tints..... | 2.00 |
| H. F. Reddick (Brand) 7.7. Red. The flowers are large, semi-rose, and brilliant with gold stamens showing among the petals..... | 1.50 |
| Jubilee (Pleas) 8.9. White. This variety produces very large, flat, ivory-white flowers. The petals are long and narrow, loosely arranged. The feathery effect produced is very attractive..... | 2.50 |
| Karl Rosenfield (Rosenfield) Semi-rose type, brilliant deep crimson; large, very full flower on long, stiff stem; extra for cutting purpose.... | 1.50 |
| Lav. "Crousse" Bought for Marie Crousse. Do not know correct name. Lovely, very full flowers of light pink tinted lavender. Stem strong and upright..... | 2.00 |
| Lady Alexandra Duff (Kel.) 9.1. The "long-lost peony." Soft French pink; very choice..... | 2.50 |
| Lady Bramwell Pale lilac-rose, the center petals creamy white at the tips..... | 1.00 |
| Lady Stradbroke (Kelway) Lively rose-pink.... | 4.00 |
| La Fayette (Des.) Rich pink, silvery reflex; large, fine blooms; very fragrant..... | 1.00 |

| | |
|--|------|
| La Cygne (The Swan) (Lem.) 9.9. Milk-white flowers with incurved petals. When well established the flowers are enormous, but always symmetrical in form; never coarse. This variety ranks as the best peony in the world. Stiff stems growing upright..... | 6.00 |
| LaFrance (Lemoine) Rating 9.0. Soft pink. Rose type. Late midseason. Very large flower and ranks with the very best..... | 4.00 |
| La Tulipe (Calot) Large pointed buds of light pink, beautifully marked with carmine strips.... | 1.00 |
| La Rosiere (Crousse) 8.3. The flowers are large and produced in clusters. They are straw-yellow at the center shading to a creamy white border. The fragrance is pleasing. The flower is loose, showing yellow stamens, a band of which light up and give a yellowish cast to the entire flower | 1.00 |
| Laura Dessert (Des.) 8.8. One of the two nearest yellow peonies. Very scarce and choice. Delightfully fragrant. Will hold its yellow color if cut and taken inside as first petals unfold..... | 7.00 |
| Livingstone (Crousse) Rose type; pale lilac rose with silver tips, center petals flecked carmine; large, compact flowers..... | 1.00 |
| Madame Calot (Mieliez) Rose type; pale hydrangea-pink, large, full flowers on strong stems; fragrant and very free blooming..... | 1.00 |
| Madame Emile Galle An ethereal shade of pink, seldom found in peonies, blooms late, very lovely | 1.00 |
| Media Hydrangea-pink. Rose type. Late..... | 1.00 |
| Mons. Jules Elie (Crousse) 9.2. Bomb type; early midseason. King of all Peonies. Color an ideal glossy lilac-pink, shading to a deeper rose at the base..... | 1.00 |
| Mons. Martin Cahuzac (Dessert 1899) Semi-rose type; midseason. A perfect solid ball of deep maroon with garnet hues and brilliant black luster. Claimed by some to be the darkest Peony in existence..... | 2.50 |
| Mme. Gaudichau (Millet) Late; rose type. Dark crimson garnet with blackest hues, full globular flowers. The stalks and leaf stems are dark crimson..... | 4.00 |
| Marguerite Gerard (Crousse) A pink semi-rose type Peony which blooms in midseason and which has a very refined appearance. The yellow stamens distributed among the petals give it a glint of gold..... | 1.00 |
| Mary Brand (Brand) 8.7. This variety is always found among the winning reds in every show room. It is a red in which there is little trace of purple. One of the most satisfactory reds as a cut flower as it will last a week and hold right up stiff, if cut in the bud..... | 2.00 |
| Marie Crousse (Crousse) A beautiful medium sized Peony of an entrancing shade of shell pink; the opening buds should be kept covered with a bag and uncovered only when taken indoors.... | 2.00 |
| Marie Jacquin (Verdier) The most perfect "Water Lily Peony" in existence; with extra good care it develops into a full double bloom of wonderful size and quality..... | 1.00 |
| Midnight (Brand) Semi-rose type. Large, loose, deep maroon, plume-shaped flower, borne on long, stiff stems..... | 2.00 |
| Milton Hill (Richardson) 9.0. Rose type; late. Flowers large, cupped, clear soft flesh color..... | 3.00 |
| Octavie DeMay (Calot Rating 8.5. Flesh-pink. Crown type.) Early. Rather low grownig with stiff stems. Free bloomer..... | 1.00 |
| Opal (Pleas.) 8.5. Delicate baby pink. Rapid grower and free bloomer..... | 2.00 |

| | |
|---|------|
| Perfection (Rich.) Rose. Late. Tall. Pale shell pink or lilac white; base of petals shaded deeper..... | 1.00 |
| Petite Renee (Dessert) A deep rose-pink Peony of semi-rose type; which sometimes carries semi-rose shape blooms and Japanese type blooms at the same time..... | 3.00 |
| Phillipe Rivoire (Riviere 1911) 9.2. Rose. Early. Tall. Large well formed cup-shaped flower; very dark crimson with tea rose fragrance. Not for sale. | |
| Philomele (Calot) 7.7. Anemone type. A very distinct and striking flower of unique color scheme. Medium size; guards of bright violet-rose. Center deep golden yellow. Develops crown of bright rose, edged crimson..... | 1.50 |
| Primevere (Lemoine) 8.6. Guard petals deep creamy yellow and center petals sulphur-yellow. If not exposed to the full sun the flowers will hold a canary yellow which is most attractive..... | 2.50 |
| Prince of Darkness (Brand) A rich, dark maroon Peony. Not a free bloomer..... | 1.00 |
| Queen Victoria Bomb type. Early midseason. Pure white used extensively for cut flowers:.... | .50 |
| Reine Hortense (Calot) Rating 8.7. Soft pink. Semi-rose type. Midseason..... | 2.50 |
| Richard Carvel (Brand 1913) 8.8. Bomb type; early. Color very bright, uniform shade of crimson. Best of all early reds and valuable as a cut flower variety..... | 2.50 |
| Sarah Bernhardt (Lem.) 9.0. Large, delicate shell-pink. Fresh tone in the coloring that makes the very large and finely formed blooms most alluring. Has a world-wide reputation as a beautiful ideal peony..... | 2.00 |
| Solange (Lem.) 9.7. "Deep cream, tinged with amber throughout, and with a touch of soft salmon-pink glowing from its heart. This rare coloring, in combination with the heavy texture of the petalage, gives the bloom a radiance equaled only by pearls of finest Orient." Solange must be thoroughly established to show its high quality..... | 3.00 |
| Suzette (Des.) 8.2. Very brilliant rose-pink; vivid and most charming color; free bloomer; strong stem..... | 2.00 |
| The Gem (Pleas) Blooms of bright crimson with some silvery reflex ; rose type..... | 2.00 |
| Therese (Dessert) 9.8. Rose type. Midseason. One of the three highest rated Peonies. Color rich satiny pink with glossy reflex. Flowers are enormous in size of full rose type. Sturdy, vigorous grower with upright stems and rich green foliage. Delicately fragrant..... | 3.00 |
| Tourangelle (Dessert) 9.4. Rose type; late mid-season. Pearly white overlaid with delicate salmon and LaFrance pink tints. Exquisitely beautiful in form and color..... | 3.00 |
| Venus (Kelway) A good, pale pink Peony with a collar of a lighter shade; crown type..... | 2.00 |
| Welcome Guest (Hollis) The petals are of a uniform bright rose color. The flower is large, rather informal and semi-double. Good grower on tall stems and a free bloomer. Late midseason | 2.00 |
| Walter Faxon (Richardson 1904) 9.3. Semi-rose type; midseason. Outstanding in color; a soft coral-pink shaded lighter at the ends of the petals and a deeper rose-pink at the base, with a salmon reflection. Exquisitely beautiful. Medium to large size flower, globular in form with a cupped center. Medium tall and vigorous grower..... | 2.50 |
